

# A38 Derby Junctions scheme

## Public consultation

### 7 September to 18 October 2018

**Highways England is the government owned company, responsible for the operation, maintenance and improvements of England's strategic road network of motorways and major A roads.**

**We will be consulting on improvements to the A38 through Derby this autumn. This leaflet is designed to tell you what we are consulting on, when and how you can get involved.**

### Why is the scheme needed?

At Highways England we believe in a connected country and our network makes these connections happen. We strive to improve our major roads and motorways - engineering the future to keep people moving today and moving better tomorrow. We want to make sure all our major roads are more dependable, durable and most importantly, safe. That's why we're delivering £15 billion of investment on our network – the largest investment in a generation.

The A38 Derby Junctions scheme is a critical part of this investment. Where the road passes through Derby, long distance traffic travelling between Birmingham and the M1 at junction 28, interacts with

a large volume of vehicles making local journeys and this causes congestion and delays at the Kingsway, Markeaton and Little Eaton roundabout junctions.

### What are we consulting on?

Following on from the preferred route announcement that was made in January 2018, we're now consulting on the more detailed plans to replace the Kingsway, Markeaton and Little Eaton roundabout junctions with two underpasses and a flyover. We have produced a consultation brochure and a questionnaire to help you understand more about what we are proposing, and allow you to have your say on elements like pedestrian and cyclist access and environmental mitigation measures. These documents, along with some other supporting materials, will be available on our webpage, [www.highwaysengland.co.uk/A38-Derby-Junctions](http://www.highwaysengland.co.uk/A38-Derby-Junctions), from 7 September, or to pick up from a number of deposit points around Derby (see list overleaf) from the same date.

We will also be holding a number of public exhibitions where you can find out more about our proposals and talk to members of our team about them. The details of these events can also be found overleaf.
