The Black Cat junction: new layout

Download on the **App Store**

North Clo

The new Black Cat junction will mean that the existing side road junctions and private means of access onto the A1 to the north and south of the Black Cat junction will be fundamentally unsafe, if left as is. To address this we will be closing the direct access onto the A1 from:

- 4 The Lane
- Kelpie Marina 6 Great North Road
- 7 To ensure safer access, a new local road will link The Lane, Nagshead Lane and Chawston Lane to Bedford Road via the new Roxton Road bridge.

5

- 9 A new service road provides access from the BP filling station and Great North Road to Black Cat
- **10** The height of the new carriageway will reduce the headroom beneath Roxton Road bridge so it will need to be demolished. A new bridge will connect Roxton Road to Bedford Road and Chawston. We are investigating ways to recycle the materials from the bridge for use during construction.
